# AXIS Mobile Monitor
Live video on handheld devices.

> Live video on hand–held devices

> Easy installation

> Flexible configuration

> PTZ and I/O control

> Intuitive user interface

> Easy-to-read focus indicator

AXIS Mobile Monitor software enables quick and easy access to live video from Axis network video products, directly on smartphones or Pocket PCs. It increases the flexibility of the installed cameras, not only for viewing live video but also for versatile camera management.

AXIS Mobile Monitor makes mobile surveillance convenient on handheld devices running Windows Mobile.

Designed with ease of use in focus, this software offers easy installation and setup with automatic discovery and flexible configuration of cameras.

With intuitive user interface, AXIS Mobile Monitor provides pan/tilt/zoom operation and manual control of I/O ports.

AXIS Mobile Monitor also simplifies the physical installation of Axis network cameras when focus and direction need to be set or adjusted.
